PROFESSIONAL SUMMARY

Results-driven Data Analyst skilled in SQL, Power BI, Python, Excel, KPI Reporting, Data Visualization, ETL, Dashboard Automation and Business Intelligence. Proven ability to design interactive dashboards, automate MIS reporting and deliver actionable business insights. Microsoft Power BI (PL-300) certified. Seeking Data / BI / MIS Analyst roles where I can leverage analytical and visualisation skills to drive data-informed decisions.

TECHNICAL SKILLS

Programming/ Databases: Python (Pandas, NumPy, Matplotlib, Seaborn), R, SQL, MySQL

Data Analytics & EDA: Exploratory Data Analysis, Statistical Analysis, KPI Reporting, ETL, Data Wrangling, Requirement Gathering, Dashboard Design, Business Analysis, Data Modelling, Data Validation, Data Visualization, Data Cleaning, Business Intelligence

BI & Tools: Power BI (DAX, Power Query, Data Modeling), Tableau, Excel (Power Pivot, Pivot Tables, Macros, MIS Automation), MySQL Workbench (SQL Querying, Database Management)

WORK EXPERIENCE

Business Analytics Intern | AI-DROM Global Pvt. Ltd. | Apr 2025 - Jun 2025

- Designed and deployed Power BI dashboards for sales, operations and performance tracking, boosting reporting efficiency by 40%.
- Built end-to-end ETL workflows with Power Query and SQL, reducing manual data preparation effort by 30%.
- Collaborated with cross-functional stakeholders to gather requirements and deliver weekly/monthly KPI reports, accelerating data-driven decision turnaround by 35%.

PROJECTS

Olympic Performance Analytics Dashboard - Tools: Python, Power BI, DAX, Excel | [GitHub](#)

- Engineered a Power BI dashboard to analyse 120+ years of Olympic medal data by year, country, sport and medal type.
- Authored advanced DAX measures and KPIs to track total medals, gold-medal ratios and country-wise performance trends over time.
- Implemented interactive slicers and drill-through pages, enabling stakeholders to explore country dominance and historical insights at a glance.

Customer Behaviour Analysis - Tools: Excel, DAX, Power BI, SQL | [GitHub](#)

- Analyzed large-scale customer transaction data using SQL to uncover patterns in purchase frequency, basket size and spending behaviour.
- Segmented customers based on buying habits and identified high-value customer groups contributing maximum revenue.
- Discovered key drivers of sales variation including seasonality, product preferences and payment methods, enabling targeted marketing and revenue optimization strategies.

Impact of Delivery Delay on Order Cancellation - Tools: Power BI, Excel | [GitHub](#)

- Decomposed end-to-end delivery delays into preparation, dispatch and transit stages to pinpoint the primary drivers of order cancellations.
- Conducted multi-dimensional analysis across time slots, locations and delivery partner ratings to surface high-risk cancellation patterns.
- Formulated targeted operational strategies including smarter dispatch sequencing and optimized partner assignment to proactively reduce delays and cancellations.

EDUCATION

Bachelor of Technology - Computer Science | Aug 2021 - Jun 2025

Teerthanker Mahaveer University, Moradabad | CGPA: 8.2 / 10

CERTIFICATIONS

- Microsoft Power BI Data Analyst Associate (PL-300) - Microsoft | Aug 2025 | [Certificate](#)
- Deloitte Australia - Data Analytics Job Simulation | Jul 2025 | [Certificate](#)
- Tata Data Visualisation - Empowering Business with Effective Insights | Jul 2025 | [Certificate](#)
